SUBJECT INDEX TO VOLUME 117

Absorption
  inhibition of (Cocco & Hendrix), 290
  intestinal (Cocco et al.), 1
    (see transport), (Cocco & Hendrix), 296
  of fructose (Cocco & Hendrix), 290
  sugar (Cocco et al.), 1
    (see transport), (Cocco & Hendrix), 296
Adenoma, villous
  of colon, fecal electrolyte loss in (Salem et al.), 69
Adrenal hyperplasia
  congenital, virilizing (David et al.), 16
    effect of age on urinary steroid excretion (David et al.), 16
  fractionation of urinary 17-ketosteroids (David et al.), 16
Anger
  observations on parental hypertension and coronary disease (Ross & Thomas), 37
Antibiotic therapy
  determination of cortisol secretion rate during (Rivarola & Migeon), 286
Anxiety
  observations on parental hypertension and coronary disease (Ross & Thomas), 37
Axon
  development of axon patterns (Van der Loos), 228

Blood-luminal barrier
  demonstration of (Cocco et al.), 1
Book Reviews, 58, 128, 198, 251, 322, 400

Cell
  growth, castration (Cheek et al.), 306
    hypopituitarism (Cheek et al.), 306
    hypothyroidism (Cheek et al.), 306
  muscle, number of (Cheek et al.), 306
  pyramidal, cerebral cortex (Van der Loos), 228
  size and number, growth of (Cheek et al.), 306
    of Snell Smith mice (Cheek et al.), 306
Cell size and number
  growth of (Cheek et al.), 306
  of Snell Smith mice (Cheek et al.), 306
Cerebral cortex
  "improperly" oriented pyramidal cell in (Van der Loos), 228
Cholesterol
  precursors of hypertension and coronary disease (Ross & Thomas), 37
Colon
  fecal electrolyte loss in villous adenoma of (Salem et al.), 69
Complement and component compounds
  estimations of in systemic lupus erythematosus (Townes & Stewart), 348
Component
  estimations in systemic lupus erythematosus (Townes & Stewart), 348
Contact guidance concept
  as used in explanation of neuron-migration and -growth (Van der Loos), 228
Coronary disease
  among healthy, medical students (Ross & Thomas), 37
Cortex, cerebral (Van der Loos), 228
Cortico-medullary sodium gradient
  effect of ethacrynic acid on the renal (Cooke & Lindeman), 271
Cortisol secretion rate
  determination during antibiotic therapy (Rivarola & Migeon), 286

Deafness
  with symphalangism (Strasburger et al.), 108
Deficiency
  glucose-6-phosphate dehydrogenase activity of skin fibroblast from enzyme-deficient subjects (Nitowsky et al.), 363
Dendrite
  development of dendrite patterns (Van der Loos), 228
Depression
  observations on parental hypertension and coronary disease (Ross & Thomas,) 37
Development of
  axons (Van der Loos), 228
  cerebral cortex (Van der Loos), 228
  dendrites (Van der Loos), 228
  neurons (Van der Loos), 228
Diastolic pressure
  in hypertension and coronary disease (Ross & Thomas), 37
Discriminant function analysis
  in hypertension and coronary disease (Ross & Thomas), 37
Distance action concept
  as used in explanation of neuron-migration and -growth (Van der Loos), 228
Double orifice
  of mitral valve (Mehrizi et al.), 8

Down's syndrome
(see mongolism) (Sigler et al.), 374
Drug Letter 195

Electrolyte loss, fecal
villous adenoma of colon (Salem et al.), 69
Electron microscopic
demonstration of unmyelinated nerves in haversian canals of adult dog (Milgram & Robinson), 163
Enzyme-deficient subjects
glucose-6-phosphate dehydrogenase activity of skin fibroblast cultures from (Nitowsky et al.), 363
Ethacrynic acid
its effect on the renal cortico-medullary sodium gradient (Cooke & Lindeman), 271
Ethnic origin
as criterion in hypertension and coronary disease (Ross & Thomas), 37

Familial component
in longevity (Hawkins et al.), 24
Fingers
anomaly of (Strasburger et al.), 108
"stiff fingers" (Strasburger et al.), 108
Follow-up on longevity study of Pearl & Pearl (Hawkins et al.), 24
Fructose transport
by phlorizin in the anesthetized rat (Cocco & Hendrix), 296

Glucose-6-phosphate dehydrogenase
activity of skin cultures (Nitowsky et al.), 363
electrophoresis (Nitowsky et al.), 363
enzyme deficiency (Nitowsky et al.), 363
fibroblast (Nitowsky et al.), 363
genetics (Nitowsky et al.), 363
skin (Nitowsky et al.), 363
tissue culture (Nitowsky et al.), 363
Great vessels
origin from right ventricle; with and without pulmonic stenosis (Mehrizi), 75
Growth of
axons (Van der Loos), 228
cerebral cortex (Van der Loos), 228
dendrites (Van der Loos), 228
neurons (Van der Loos), 228

Haversian canals
of adult dog; an electron microscopic demonstration of unmyelinated nerves in (Milgram & Robinson), 163
Heart disease
congenital (Mehrizi et al.), 8, 75
ostium primum defect (Mehrizi et al.), 8
Heart rate
with observations on parental hypertension (Ross & Thomas), 37
Hypertension
precursors of among healthy medical students (Ross & Thomas), 37
Hypothyroidism
inflammatory response of hypothyroid rats to subcutaneous rhizopus oryzae infection (Paplanus & Sheldon), 140

"Improperly" oriented pyramids in cerebral cortex (Van der Loos), 228
Inflammation
response of hypothyroid rats to subcutaneous rhizopus oryzae infection (Paplanus & Sheldon), 140
Intestinal transport
fructose by phlorizin in the anesthetized rat (Cocco & Hendrix), 296
the effect produced by phlorizin and hypertonic saline on sugar movement from blood to intestinal lumen (Cocco & Hendrix), 296
Inverted pyramids
in cerebral cortex (Van der Loos), 228

Kidney
nephritis due to systemic lupus erythematosus (Townes & Stewart), 348

Lipopolysaccharide PmKo
dermal response to (Dannenberg et al.), 174
Liver DNA
castration (Cheek et al.), 306
hypopituitarism (Cheek et al.), 306
hypothyroidism (Cheek et al.), 306
in rats (Cheek et al.), 306
in Snell Smith mice (Cheek et al.), 306
Longevity
familial component in (Hawkins et al.), 24
Loop of Henle
the site of action of ethacrynic acid and its effect on the renal cortico-medullary sodium gradient (Cooke & Lindeman), 271

Measurement
of muscle cell number (Cheek et al.), 306
of muscle cell size (Cheek et al.), 306
of muscle mass (Cheek et al.), 306

Medical practice
the periphery of (Roth), 157
Medicine and religion
psychiatry's responsibility to (Howland), 137
Methods
for estimation of C'2 (Townes & Stewart), 331
for estimation of C'3 complex (Townes & Stewart), 331
Migration
of cortical neuroblasts (Van der Loos), 228
Mitral valve
double orifice associated with ostium primum defect (Mehrizi et al.), 8
Mongolism
parental age and mongolism (Sigler et al.), 374
Muscle cell number
growth of (Cheek et al.), 306
Muscle cells
growth of (Cheek et al.), 306
liver DNA in rats (Cheek et al.), 306
Snell Smith mice with insufficient pituitary, 306
thyroid, or testicular function (Cheek et al.), 306
Muscle collagen
castration (Cheek et al.), 306
hypopituitarism (Cheek et al.), 306
hypothyroidism (Cheek et al.), 306
Muscle growth
castration (Cheek et al.), 306
hypopituitarism (Cheek et al.), 306
hypothyroidism (Cheek et al.), 306
Mycobacteria
anonymous (Wagley et al.), 207
atypical (Wagley et al.), 207

Nerves, unmyelinated
in haversian canals of adult dog (Milgram & Robinson), 163
Neuroblast
cerebral cortex (Van der Loos), 228
Neuron
cerebral cortex (Van der Loos), 228
Number of
muscle cells (Cheek et al.), 306

Orientation
of cortical neurons (Van der Loos), 228

Phlorizin
effect on sugar movement from blood to intestinal lumen (Cocco & Hendrix), 296
inhibition of absorption of fructose by (Cocco & Hendrix), 290
Physiology, renal
loop of Henle (Cooke & Lindeman), 271
Plasma
the antibacterial potency of (Fisher), 257
Pulmonic stenosis
clinico-pathological correlation in autopsied cases, 75
Pyramidal cell
in cerebral cortex (Van der Loos), 228

Radiation
exposure of parents of mongoloid children (Sigler et al.), 374
Religion
observations on parental hypertension and coronary disease (Ross & Thomas), 37
psychiatry's responsibility to (Howland), 137
Reverse transport
the effect produced by phlorizin and hypertonic saline on sugar movement from blood to intestinal lumen (Cocco & Hendrix), 296
Rhizopus oryzae, subcutaneous
inflammatory response of hypothyroid rats to (Paplanus & Sheldon), 140
Right ventricle
the origin of both great vessels from (Mehrizi), 75

Salt depletion
fecal electrolyte loss in villous adenoma of the colon (Salem et al.), 69
Serum, human
the antibacterial potency of (Fisher), 257
Skin
dermal response to lipopolysaccharide PmKo (Dannenberg et al.), 174
fibroblast cultures from enzyme-deficient subjects (Nitowsky et al.), 363
Snell Smith mice
with insufficient pituitary, thyroid or testicular function (Cheek et al.), 306
Sodium chloride reabsorption
inhibition of (Cooke & Lindeman), 271
Stenosis, pulmonic
clinico-pathological correlation in 18 autopsied cases (Mehrizi), 75
Steroid excretion, urinary
in congenital adrenal hyperplasia (David et al.), 16

Sugar transport
from blood to intestinal lumen (Cocco & Hendrix), 296
Symphalangism
genetic and clinical aspects (Strasburger et al.), 108
Systemic lupus erythematosus
complement and component compounds (Townes & Stewart), 348
nephritis due to (Townes & Stewart), 348
Systolic pressure
discriminant function analysis (Ross & Thomas), 37

Tissue culture
activity of skin fibroblast from enzyme-deficient subjects (Nitowsky et al.), 363
Titratable acid
site of action of (Cooke & Lindeman), 271
Tracing of subjects lost to follow-up methods of (Hawkins et al.), 24
Transport
fructose (Cocco & Hendrix), 290
intestinal (Cocco & Hendrix), 296
phlorizin (Cocco & Hendrix), 296
reverse (Cocco & Hendrix), 296
sugar (Cocco & Hendrix), 296
Tuberculosis
dermal response to lipopolysaccharide PmKo from tubercle bacilli as an index of resistance to tuberculosis (Dannenberg et al.), 174
